FOR IMMEDIATE RELEASE

Document Data Solutions Moves to Danbury, CT to Larger Location

Danbury, CT – August 27, 2010 - Document Data Solutions (DDS), a leader in Quality Control, Vision, Piece Level Tracking and Inkjet solutions, today announced that it has completed the move to its new Danbury, Connecticut location. The new location significantly increases our capabilities as it is over twice the size of our former location. The new location gives DDS an expanded product demonstration room showing many of our unique products and configurations. An open house is scheduled for November.

“The expansion was made necessary by substantial growth we have experienced over the past several years,” said Robert Ellis, President of Document Data Solutions. “The new facility will give us increased capacity in manufacturing, sales and support.”

This new location reinforces Document Data Solutions ability to provide its customers with its unparalleled service, support and custom applications

About Document Data Solutions

Document Data Solutions (DDS), is dedicated in providing unrivaled vision, quality control, piece level tracking, management reporting and inkjet solutions for the printing, mailing, bindery and packaging industry. DDS can show you the power in collecting data centrally for your production environment.

Service after the sale is extremely important to DDS. DDS has its **“ServiceInSeconds™”** which allows its customers, with a click of a button, to connect with one of its service technicians in seconds to help resolve any issues and keep their customers in production.
